10th Congress of the Swiss Society of Psychology
Differences, Diversity, and Change

September 13 – 14, 2007
Kongresshaus Zürich

Program
The University of Zurich is proud to host the 10th Congress of the Swiss Society of Psychology (SGP/SSP). As this congress continues the tradition of providing a platform for exchange about developments in all domains of scientific psychology, we are happy to announce a record number of submissions that highlights the high standards of psychological research in Switzerland and illustrates the thematic breadth and practical relevance of psychological research. The organizing committee appreciates the financial support provided by the Swiss Academy of Liberal Arts (SAGW/ASSH), the University of Zurich, and the Institute of Psychology at The University of Zurich that made the organization of this congress possible. We thank the sponsors for their support of the conference and the awards for young researchers presented at the meeting.

Under the congress title “Differences, Diversity, and Change” the program provides a scientific framework that includes psychologists of different basic and applied research areas. New developments in key areas of psychological research are highlighted in three inter-university Invited Symposia on the newest developments in Affective and Social Sciences, in Developmental and Cognitive Psychology, and in Neuropsychology. We thank the organizers Klaus Scherer (Geneva), Tania Singer (Zurich), Alexander Grob (Basel), Claudia Roebers (Berne), Lutz Jäncke (Zurich), and Fred Mast (Lausanne) of these Invited Symposia for providing this extra effort to present an outlook on the future of psychological research in their respective fields.

Two roundtables at the two days of the conference are offered: To emphasize the importance of competitive research and to guide through the trends in funding possibilities of the Swiss National Science Foundation, Meinrad Perrez and Jean-Bernard Weber offer a roundtable session on “Funding of research and young scientists by the Swiss National Science Foundation”.

The Swiss Society of Psychology itself presents key views on the ethics of psychological research in a roundtable discussion on “Research with Human Beings” due to the current interest in the topic and the impact that respective federal laws may have on psychological research in Switzerland.

Based upon a recommendation of the Board of the Swiss Society of Psychology and the good experiences from the 9th Congress of the Society in Geneva, the official language of the conference is English. This should enable all participants to follow and select from the entire program. In addition, the invited keynote speakers will be able to follow the scientific program; this is of special interest for researchers who might want to discuss their research with these leading figures in psychology worldwide. As keynote speakers, we have invited two internationally renowned experts in the area of cognitive development, Prof. Judy DeLoache (University of Virginia, USA), and in the area of intelligence research, Prof. Robert J. Sternberg (Tufts University, USA). Thus, we hope to offer you an interesting and stimulating scientific program.

Special Thanks

We would like to express our gratitude to all who have been involved in the organization of this congress. We highly appreciate the excellent job Simone Kregar did as congress secretary and the very efficient contribution of Sonia Faè as auxiliary secretary. Special thanks go to Uwe Koch for designing the conference webpage and to Monika Moor and Barbara Manurung for graphic design. Furthermore, we gratefully acknowledge the effort of the Poster Jury in reviewing the presented poster contributions to assign the Poster Awards. Last but not least, we thank our students who with great enthusiasm contributed to the realization of the conference.

Author: Luder, M. (University of Zurich)

P01-08: What counts in life. Giving credit to oneself and others in elderly people’s life story interviews
Author: Hermann, M.-L. (University of Zurich)

P01-09: Time series modelling of anxiety symptoms in Panic Disorder and Posttraumatic Stress Disorder in daily life: limited evidence for cognitive theories of panic
Authors: Pfaltz, M. C., Michael, T., Kolodyazhniy, V., Peyk, P., Margraf, J., & Wilhelm, F. H. (University of Basel)

P01-10: The application of Ecological Momentary Assessment (EMA) in a population of severely addicted opioid users in a heroin-assisted treatment program: Preliminary results
Authors: Milenkovic, N.1, Munsch, S.1, Schmid, O.2, Wiesbeck, G. A.2, Margraf, J.1, & Wilhelm, F.1 (1University of Basel; 2University Hospital Basel)

Authors: Zorn, P., Soravia, L. M., Tschacher, W., & Roder, V. (Universitäts Psychiatrische Dienste Bern)

P01-12: ELADEB: a scale for self-rating of problems and needs in patients suffering from psychiatric disorders
Authors: Fernandez, S., Reymond, Ch., & Pomini, V. (University of Lausanne)

P01-13: Increasing the Motivation for Physical Activity in Obese Individuals
Authors: Schelling, S., Biedert, E., Meyer, A. H., & Munsch, S. (University of Basel)

P01-14: Qualitative psychotherapy research: Dream reports and changes in a therapy process
Author: Spiegel, U. (University of Zurich)

P01-15: Therapeutic relationships in the psychiatric hospital: preliminary results with depressed inpatients
Authors: Salamin, V.1,2, Perrenoud, P.1, & Giacometti Bickel, G.1
(1 Hôpital Psychiatrique Cantonal, Marsens; 2 University of Fribourg)
14.00 – 15.30

P01-16: Multi-method assessment of alexithymia and emotion regulation in daily life of somatoform inpatients: a pilot study
Authors: Salamin, V., Menzies, S., Maggiori, Ch., & Reicherts, M. (University of Fribourg)

Cognition

P01-17: Estimating X-Ray Image Difficulty Using a Linear Model Based on Automated Image Processing
Authors: Bolfing, A., Michel, S., & Schwaninger, A. (University of Zurich)

P01-18: The influence of pre-employment assessment and individually adaptive computer-based training on detection performance in x-ray screening
Authors: Hardmeier, D.¹, Hofer, F.¹, & Schwaninger, A.¹² (¹ University of Zurich; ² Max Planck Institute, Tübingen)

P01-19: The idiographic approach in Social Judgment Theory: A review of the Lens Model Equation
Authors: Kaufmann, E.¹, Sjödahl, L.², & Mutz, R.³ (¹ University of Mannheim; ² Malmö School of Education, Lund University; ³ Swiss Federal Institute of Technology Zurich)

P01-20: “Am I enjoying this task?”: Judgment context and mood effects on effort mobilization
Authors: de Burgo, J., & Gendolla, G.H.E. (University of Geneva)

P01-21: Images, words, expertise and the representation of emotion in football: A psycholinguistic approach
Authors: Lamontagne-Müller, L., & Gygax, P. (University of Fribourg)

P01-22: Cognitive information processing skills and children’s social preference
Authors: Kauer, M., & Roebers, C.M. (University of Berne)

P01-23: Incidence and cognitive risk factors of DSM-IV anxiety disorders in community
Authors: Rudaz, M.¹, Margraf, J.¹, & Becker, E. S.² (¹ University of Basel; ² Radboud University Nijmegen (NL))

P01-24: Effectiveness of computer-based training for increasing detection performance in hold baggage screening
Authors: Wetter, O. E.¹, Hofer, F.¹, & Schwaninger, A.¹² (¹ University of Zurich; ² Max Planck Institute, Tübingen)

P01-25: Impulsivity and inhibition
Authors: Gay, Ph., d’Acremont, M., Billieux, J., Rochat, L., & Van der Linden, M. (University of Geneva)

P01-26: Identity Verification from Photographs in Travel Documents
Authors: Chiller-Glaus, S.¹, Schwaninger, A.¹², & Hofer, F.¹ (¹ University of Zurich; ² Max Planck Institute, Tübingen)
14.00 – 15.30

P01-27: Time is money - is it? A comparison of two resources in the field of active and sequential information search
Authors: Zurbriggen, S., Christen, S., Hausmann, D., & Läge, D. (University of Zurich)

P01-28: Are "image enhancement functions" really useful to enhance x-ray images?
Authors: Michel, S., Koller, S., Ruh, M., & Schwaninger, A. (University of Zurich)

Emotion and Motivation

P01-29: Risk defusing and facial expressions of emotion and cognition
Author: Bär, A. S. (University of Fribourg)

P01-30: Reflecting on self-concordant activities increases happiness: A random-assignment, placebo-controlled study
Author: Sollberger, B. (University of Berne)

P01-31: The role of nonverbal communication in the interactions between Alzheimer’s patients, volunteers and dogs during Animal Assisted Therapy
Authors: Bassal, C., & Kaiser, S. (University of Geneva)

P01-32: What are the emotions elicited by odors? Identifying the semantic space describing emotions elicited by olfactory stimuli
Authors: Chrea, C.¹, Delplanque, S.¹, Grandjean, D.¹, Le Calvé, B.², Cayeux, I.², Sander, D.¹, & Scherer, K.¹ (¹University of Geneva; ²Firmenich SA)

P01-33: Conceptual background and psychometric properties of the subscale socio-emotional competence in the context of IDS
Authors: Meyer, Ch., & Grob, A. (University of Basel)

P01-34: Alexithymia and dimensions of Emotional Openness in non-clinical samples of adults and adolescents
Authors: Zimmermann, G.¹, Genoud, Ph. A. ¹, & Reicherts, M.¹ (¹University of Fribourg; ²University of Lausanne)

P01-35: Fearing rejection and wanting acceptance - How do co-occurring approach and avoidant affiliation motives influence well-being, perception, and behavior?
Authors: Nikitin, J., & Freund, A. M. (University of Zurich)

P01-36: Emotion regulation and empathy in counseling
Authors: Schenkel, K., Kaiser, S., & Wranik, T. (University of Geneva)

P01-37: Depressed but Motivated: The Joint Effect of Dysphoria and Task Difficulty on Effort Mobilization
Authors: Brinkmann, K., & Gendolla, G. H. E. (University of Geneva)
14.00 – 15.30

P01-38: Plans Thwarted. Do Implementation Intentions Increase Persistence in a Failing Course of Action?
Authors: Giesinger, L., & Brandstätter, V. (University of Zurich)

P01-39: Task difficulty, incentive value, and cardiac reactivity: Taking a closer look at motivational intensity theory
Author: Richter, M. (University of Geneva)

P01-40: Autonomic Reactivity during Mood Regulation: The Impact of Mood States
Authors: Silvestrini, N., & Gendolla, G. (University of Geneva)

P01-41: The Influence Mechanism of Attachment on Affect Reaction and Social Attribution among the Chinese Undergraduate Students
Author: Hu, P. (University of Geneva)

P01-42: Multimodal patterning of expressive channels during emotional communication
Authors: With, S., & Kaiser, S. (University of Geneva)

Learning, Memory, and Cognition

P01-43: Do heuristics influence quality ratings? The case of automobile safety
Author: Fichter, Ch. (University of Zurich)

P01-44: Does learning of sequences improve prospective memory performance in older adults?
Authors: Sutter, Ch., Helg, A., Zöllig, J., Klügel, M., & Martin, M. (University of Zurich)

P01-45: A top-down driven model of perceptual learning
Authors: Tartaglia, E., Åberg, K., & Herzog, M. H. (Swiss Federal Institute of Technology Lausanne)

P01-46: Differences in selected spatial strategies used by autistic and non-autistic children
Authors: Werlen, E., Boost, C., & Brandner, C. (University of Lausanne)

P01-47: The role of motivation and task setting in age differences in prospective memory performance.
Authors: Aberle, I.¹, Klügel, M.¹, & Rendell, P.² (¹ University of Zurich; ² Australian Catholic University)

P01-48: How do proactive interference and verbal distractors influence age-related performance in a recognition-based operation span task?
Authors: Zeintl, M., & Klügel, M. (University of Zurich)

P01-49: Online health care program for gambling disorders
Authors: Andronicos, M., Riths, M., & Besson, J. (Centre du Jeu Excessif, CHUV)
14.00 – 15.30

P01-50: Current issues and a new paradigm in synesthesia research
Authors: Rothen, N., & Meier, B. (University of Berne)

P01-51: The influence of simulated and induced mood on mood congruity effects in incidental and intentional learning
Authors: Schmid, P. C.¹, Grubert, A. K.², & Perrig, W. J.³ (¹ University of Neuchâtel; ² University of Fribourg; ³ University of Berne)

P01-52: Age-related neuronal differences during the encoding of later successfully executed intentions
Authors: Leibacher, Ph., Zöllig, J., Kliegel, M., & Martin, M. (University of Zurich)

P01-53: Prospective memory ability and checking behaviour affect the choice of contraceptive in Swiss female university students
Authors: Matter, S., & Meier, B. (University of Berne)

P01-54: Relationships between intraindividual variability, processing speed, visualization and field-dependence?
Authors: Lecerf, T.¹, & Roulin, J.-L.² (¹ University of Geneva; ² Université de Savoie (F))

P01-55: Age differences in intraindividual variability in working memory performance
Authors: Lecerf, T., Bürki, C., & de Ribaupierre, A. (University of Geneva)

P01-56: Successfully Betting on Speed of Retrieval in Memory-Based Decision Making
Authors: Gaissmaier, W.¹, Bröder, A.², Schooler, L. J.¹, & Marewski, J. N.³ (¹ Max Planck Institute, Berlin; ² University of Bonn)

Internet Access
At our Internet Corner (near the Registration Desk) we allocate free access to the internet enabling you to check your mails during the two conference days. Wireless Lan connection on your own computer will be available upon purchase of a license at the reception of the Kongresshaus Zürich.

Conference Dinner
The social event takes place on Thursday, September 13 and begins with a reception cocktail at 19:30 in the Panoramasaal at the Kongresshaus Zürich. The following dinner includes a savoury 3-course menu ending with a delicious desert buffet.
Live dinner music and entertainment is performed by the splendid artists Daniela & Attila, who will, with their performance, add a unique brilliance to the festive banquet.

In case you have not registered for the social event, but wish to take part, please check with the person at the reception desk for availability.

Lunch
You will find three restaurants in the Kongresshaus Zurich and various other beautiful places in the nearby vicinity. An overview with nearby eating facilities is provided within your conference documents.

General Information for Paper and Poster Sessions

Paper Session
Each paper session (including symposia) is limited to 75 min - please note the adapted duration. Each presentation is scheduled to last approximately 10 minutes and is assigned a 5 minutes discussion time, depending on the number of speakers.
Considering the tight schedule of the conference the keeping of this time limit is essential.

_Equipment:_ All rooms are equipped with a computer (Windows) and a video projector (beamer). The following extra devices can be provided upon request: overhead projector and video equipment. Please let us know by e-mail no later than August 31, 2007 if you plan to use any of these devices.

Authors working with PowerPoint are kindly requested to bring their USB stick containing their material to the assigned room 10 minutes prior to the beginning of their session.

We will not provide laser pointer.

Poster Session
Each poster presentation is assigned to one of two poster sessions taking place at different conference days.

_Format:_ A0 panel format (841 x 1188 mm).

_Set-up and dismantling:_ Poster can be mounted one hour prior to the assigned poster session. All posters must be removed within the hour
